THIS pedal does more than just feed gas to an eager and highpowered V8 engine.

When you give it the extra nudge that moves it beyond the full throttle position, something happens that never happened before in an automobile.

You hear a businesslike purr, which tells you that twenty power vanes, deep inside the 1955 Dynaflow Drive,\* have changed their pitch-just like the variable pitch propellers on a modern air liner.

And with the same result in the way you get-up-and-go, with a safety-surge of power for pulling out of a tight spot on the highway.

Drug Worth? You may have been charged \$5 or \$10 for a small bottle of capsules. Perhaps you think it was an outrageous price to pay for the drug. Then it may be that you are unaware of certain important facts. The medicine has proved to be marvelous in the treatment of pneumonia or other diseases which less than ten years ago often were killers.

may prevent a serious surgical seperation or confinement in a hospital for a long time or it may even save your life.

The chances are that it cost more than a million dollars to make the drug available. Is \$5 or \$10 too high a price for a medicine that performs miracles. You have the answer.
